

Our Work

Through some of the most traumatic events and times in my life (Practitioner) has been like a life raft. I don't naturally open up to people and find it very easy to do so with him. I am so grateful that I have him to help me navigate through life at the moment.

A really good support and valuable advice to deal with difficult circumstances.

It's like talking to a friend.

Always great service. I trust the workers and am happy knowing my children are safe and well supported.

I felt like I could say what I needed without feeling judged.

Thank goodness for your service - keep up the great work.

I would be in a very different place in my life without this service - but more than that my kids would not be doing as well as they are.

Very precious service for me - all the way from the receptionist to the counsellor.

I was very hesitant to start counselling, but now are better able to deal with ongoing issues as they arise - thank you.
